ECE Ph.D. defense exams

Student Comments (Spring 2006)

- The lectures were very informative and interesting.
- This course is very useful for my future study and research, and I really learned a lot in this course.
This is a worthwhile course.
- Is this course really a degree requirement? It is unclear to some students.
- Very worthwhile course; I definitely feel more “at home” in the department after this short introduction to each professor and his/her research.
The summary sheets were a good idea.

- This course should be required in the Fall semester for incoming students, when choosing research topics is less likely to have been completed.
- A good use of an hour. I liked hearing about the different projects that were going on.
- The seminar is really good for new graduate students to know more about the faculties and their research.
- This seminar was a good idea.
